Thursday 25th March 2021

Dear Parents and Carers

Year 9 & 10 Students Returning to School

Following our decision to close the school to Year 9 and 10 students today, we have been able to conduct a thorough track and trace review of all close contacts in response to the confirmed LFD test results yesterday evening. 102 students have been identified and we have sent separate communications to those families affected.

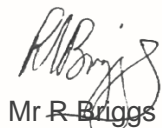

Therefore, if you **have not** received a letter notifying you that your child needs to self-isolate, **they will be expected to return to school from tomorrow, Friday 26th March.**

In addition to this and following a change in government guidance, students are now required to continue the LFD testing routine throughout the Easter holidays. Testing kits will be distributed to students during an additional Tutor Time tomorrow afternoon. Please note, kits can be also collected from Cemetary Way in Scunthorpe or the Humber Bridge car park in Hessle (both are open 1pm-8pm and you don't need an appointment), or you can have them delivered to your door. You can find the details on [how to order here](#). We politely request that tests be carried out at home **before 6pm every Sunday and Wednesday** during the Easter break, and that any positive results be shared with the school immediately.

Students will be familiar with the process now, but further guidance on how to administer a home test [can be found here](#).

Take care, stay safe and thank you for your continued support.

Yours faithfully

Mr R. Briggs
Head Teacher
